Business hub

Wollongong is the capital of the Illawarra region, where the population is expected to be over 550,000 by 2041. A stunning coastal location, Wollongong CBD is the perfect spot for your business to establish a new HQ, set up a satellite office or a remote work hub to accommodate flexible work options.

Workforce

Wollongong has a large, experienced and multilingual workforce with a diverse range of skills. There are more than 700,000 working adults within a 1-hour commute of Wollongong CBD (2022), including over 25,000 workers commuting from the region to Sydney for work.

drive or train to Sydney International Airport

World-class higher education

The locally-based University of Wollongong has been ranked in the top 200 global universities.* With ten distinguished professors and over 1,000 academic staff, the University is known for its research excellence – it has 57 disciplines at above, or well above, world standard. Its expertise is also demonstrated by the research income received – totalling over \$120 million in 2017. Particularly relevant for Tech, the University’s research in Cybersecurity and Artificial Intelligence is highly influential and includes partnerships with major Federal Government entities and some of the world’s largest IT companies.

The University recently launched a Cyber Academy in collaboration with Deloitte and the NSW Government, as part of their commitment to train the next generation of cyber security specialists.

In addition to world-class research, the University boasts an impressive graduate pipeline. In the latest Australian Government Employer Satisfaction survey, graduates from the University were rated number 1 by their employers, and placed the University in the top spot among all universities nationally.

Competitive operating costs

Research from Fifth Quadrant demonstrates Wollongong’s competitiveness when compared to Sydney, Melbourne and Parramatta CBDs. In particular, staff turnover in Wollongong is only eight percent, which is significantly lower than the turnover rate of shared services centres across Australia (19 percent).

The research found Wollongong is the most cost-effective location with the lowest salary and real estate costs for an indicative 150-seat shared service centre operation. This translates to savings in the range of 28-33 percent.

Thriving Tech ecosystem

New South Wales is well known as the capital for Tech business in Australia. 60 percent of Australian Fintech start-ups are based in the State as well as 45 percent of Australian businesses. Wollongong is already home to Tech companies that are growing fast and serving the world including Easy Agile, Accelo, Fincomp, Scalapay, Regtech, Objective, Devika and NEC.

Known for its supportive business environment, Wollongong boasts initiatives including Siligong Valley, presenting opportunities for tech professionals, digital marketers and entrepreneurs to connect and scale.
